STATEMENT OF PURPOSE: This resolution will authorize an amendment to contract 20966 with LHB, Inc. for painting and structural rehabilitation of the Aerial Lift Bridge. The majority (\$56,083) of this increase is necessary to correct an administrative error in the payment of Phases 2 and 3 of the painting contract. Design costs have been reduced from Phase 2 and increased by the same amount in Phase 3. The net change to the two phases for this correction is zero. In addition, the remaining \$23,938 of this increase will account for finalizing the design for painting and rehabilitation of the bridge's overhead truss. This design is necessary to pursue bridge bonding funds. The increased cost will be payable from Permanent Improvement Fund 411, city project no. 0792TR. Funds are available for this additional design work since the bonded costs from earlier phases have come in under projection. These funds can be used only for Aerial Lift Bridge improvements.
